

TEMPLE CONTEST HAS BEEN ENDED

MISS WILLARD'S POSITION
ENDORSED BY W. C. T. U.

New Custodian Appointed—Miss Cornelia Dow, daughter of the late Gen. Neal Dow, succeeds Mrs. Carse—Effort to retire the \$300,000 of Trust Bonds.

Buffalo, N. Y., Nov. 2.—Signs of a divorce between the Woman's Temple of Chicago and the Women's Christian Temperance Union appeared Monday. The women resolved to work with President Frances E. Willard in her struggle to retire the \$300,000 trust bonds and to establish a trust fund, with Miss Cornelia Dow as custodian. They refused to include Mrs. Carse's name in this resolution, and voted to have all money passed into the hands of Miss Dow, who will dispose of it when the fund is completed under direction of the national officers. As a compensation to Mrs. Carse for this action, they verbally praised her for her faithfulness and devotion to the Temple movement.

The selection of Miss Dow was made on Miss Willard's suggestion, after a half-day spent in debate. The resolution which was passed by the convention was presented by National Secretary Katherine Lente Stevenson. It was:

"That in view of the fact Mrs. Carse has \$123,000 already pledged and has good prospects of acquiring the sum of \$200,000 and the unselfish devotion of our leader in offering her services to assist in raising the full sum of \$300,000, we hereby pledge our support and co-operation to assist our president in raising \$300,000 to be placed in the hands of Miss Cornelia Dow, who shall deposit and hold the fund in trust until such time as there shall be enough money on hand to retire the \$300,000 of Temple trust bonds."

In the original motion Mrs. Carse's name was run with Miss Willard's, but through the efforts of the national board the convention swung away from Mrs. Carse. It clung to Miss Willard, and because she sought relief from the moral obligation of the \$300,000 bonds it decided to follow her.

Miss Dow, who is to be the custodian of the fund, is the daughter of the late Neal Dow of Maine.

Miss Frances E. Willard, president of the National Woman's Christian Temperance union, called the convention to order.

Devotional exercises were followed by the reading of reports on the W. C. T. U. school of method and parliamentary usage by Mrs. Anna S. Benjamin of Michigan; medal contests, by Mrs. M. E. Carman of Illinois; school savings banks, by Mrs. S. L. Oberholzer of Pennsylvania; unfermented wine at sacraments, by Miss Mary Moore of New York, and press work, by Mrs. Mirnie Barker Hornung of Illinois. Mrs. Emilie Martin of New York supplemented the latter report with a few words about metropolitan press work.

Mrs. E. B. Ingalls of Missouri read a paper on narcotics, urging congress to pass a law which would enable states to enact anti-cigarette laws.

Mrs. Frances Barnes, who has had charge as general secretary of the Y branch of the W. C. T. U., has resigned, in order to go abroad to take charge of W. C. T. U. work in Europe. Mrs. Ella A. Boyle of Staten Island succeeds her.

The memorial service for the dead took the place of evangelical hours.

Mrs. Katharine Lente Stevenson, national corresponding secretary, was the last of a number of speakers who paid tribute to the dead, her remarks being a beautiful eulogium of Gen. Neal Dow. Miss Willard added a few words in memoriam and told of receiving from Gen. Dow as a last gift a medal presented to him in New York in 1852 in acknowledgement of temperance work in that city.

Will Not Accept Capt. Merry.
Managua, Nicaragua, Nov. 2.—It is understood here that the diet of the Greater Republic of Central America, now in session here, has refused to agree with the argument put forward by Secretary Sherman in support of the appointment of Capt. William L. Merry of San Francisco as minister of the United States to Nicaragua, Costa Rica and Salvador, while partly recognizing the diet. It is claimed here in certain quarters that this step was taken in order to force the United States government, if possible, to recognize the diet fully, although it is claimed that body may be overturned almost any day by a successful revolution in Nicaragua, Costa Rica or Salvador, or by the withdrawal from it of any of the presidents governing the states it represents. The reply of the diet will probably be forwarded to the United States department through official channels in the near future.

Iron Miners Strike.
Duluth, Minn., Nov. 2.—Miners at the Big Roberts mine at McKinley, Minn., went out on a strike Monday for a 10 per cent advance in wages, such as was granted the miners at the Pioneer and Chandler mines. The strike is serious, as it may spread to other mines on the Mesaba range, and it is claimed that between 500 and 800 men will be affected. The managers of the Roberts mine say they will not meet the advance of the Vermilion range mine owners this season and will close their mines immediately.

BANDIT GANG ESCAPES.

Break Down the Prison Bars and Reach the Mountains.

Deadwood, S. D., Nov. 2.—The notorious Curry gang of bandits broke jail just before midnight Sunday night, and after exchanging several dozen shots with several citizens who intercepted them accidentally, made their escape to the mountains.

The fugitives are "Tom" O'Day, Frank Jones, "Tom" Jones and Walter Puney. They tore the bars from their strong cells by sheer strength of arm, assaulted the jailer with their fists and reached the open air. The jailer was well armed, but the ferocity and daring of the men were too much for him.

The men are the leading members of the Curry gang, known as the most desperate band of outlaws at present existing in the West. It is generally understood that they will be killed on sight and not given a chance to surrender. This was advocated before, but humane sentiment prevailed, and now the citizens are sorry they were not executed when captured.

FUNERAL OF HENRY GEORGE.

Remains of the Dead Philosopher Now Repose in Greenwood Cemetery.

New York, Nov. 2.—After a short, simple funeral service the body of Henry George was finally laid to rest in Greenwood cemetery Monday. Only a few persons were present at the family residence. The Rev. Dr. John W. Kramer, of Bath Beach, conducted the funeral service. After reading part of the Episcopal service for the dead Dr. Kramer paid a touching tribute to Mr. George.

After the Lord's Prayer had been said by all, the Rev. Dr. McGlynn also paid a personal tribute to the departed. He said it seemed as if they were standing by the triumphant car of some Roman hero rather than by the bier of a dead philosopher, and ended by declaring that Henry George and the cause he espoused were more alive than ever to-day in the heart of Democracy.

Creek Warrant Fraud.

Washington, Nov. 2.—Special Agent Zevilly of the interior department, whose sensational discovery of \$90,000 worth of fraudulent Creek Indian warrants was announced last week, arrived here Monday. He had a conference with Acting Secretary of the Interior Ryan, and made a verbal report of his investigation. This was confirmatory of the published statement showing that that amount of fraudulent warrants on the St. Louis sub-treasury had been issued, but that the government would lose nothing by the transaction. The losers are outside parties, who purchased the warrants on speculation.

Rosebery on Free Trade.

Manchester, England, Nov. 2.—Lord Rosebery addressed a large meeting here in connection with the centenary celebration of the chamber of commerce. He reviewed the history of free trade and elaborately eulogized its advantages to Great Britain. He declared that "any deviation from absolute political and commercial freedom would only weaken the bonds holding the empire together," and that "anything in the direction of an imperial Zollverein would weaken the empire internally and excite the permanent hostility of the whole world, already excited by British prosperity under free trade."

Sheffield Exports Decrease.

Sheffield, England, Nov. 2.—The returns of the exports of cutlery from Sheffield to the United States show that they amounted only to \$60,000 for July, August and September, as compared with \$150,000 for the same period in 1896. This is the worst showing made for the cutlery exporters of this city for seven years past. The exports of steel have increased \$25,000, but the total exports of Sheffield have fallen from \$600,000 for the same quarter to \$415,000.

Visible Supply of Grain.

New York, Nov. 2.—The visible supply of grain Saturday, Oct. 30, as compiled by the New York produce exchange, was as follows: Wheat, 26,974,000 bushels; increase, 2,232,000 bushels. Corn, 45,998,000 bushels; increase, 1,226,900 bushels. Oats, 15,364,000 bushels; decrease, 504,000 bushels. Rye, 3,442,000 bushels; increase, 191,000 bushels. Barley, 3,817,000 bushels; increase, 145,000 bushels.

Argentine to Have Good Crops.

Buenos Ayres, Nov. 2.—The prospects for crops in Argentina are splendid and there is every indication that the yield of wheat will be very large. In view of this fact no North American wheat is being purchased here. Wheat which is now being delivered was bought before it was known that the wheat crop here would be so large.

Durrant's Fate in the Balance.

Washington, Nov. 2.—Attorney General Fitzgerald of California Monday submitted a motion to dismiss or affirm in the case of W. H. Durrant. This case is an appeal from the decision of the California state court, which refused a writ of habeas corpus. It involves the proceeding against Durrant for murder.

Miners in from Cook's Inlet.

Port Townsend, Wash., Nov. 2.—The schooner Norman Sund, operated by the Copper River Trading and Transportation company of this place, arrived Monday from Cook's Inlet. She brought down sixteen passengers, who have a total of \$96,000 in gold dust taken from the placer mines of Cook's Inlet.

SALE OF THE ROAD IS MADE OFFICIAL

REORGANIZATION COMMITTEE
THE PURCHASER.

No Other Bid Presented—The Sinking Fund Makes the Total Amount Paid \$57,504,632—Master in Chancery Cornish Auctioneers the Property.

Omaha, Nov. 2.—The Union Pacific road proper, including the buildings and all that goes to operate the system, was Monday sold to the reorganization committee for the sum of \$53,528,522.76. This amount does not include the sinking fund in the hands of the government, and taking this to be \$4,036,400, the amount stated in the government decree covering the sale of the road, the total paid for the property was \$57,564,922.76. There were no other bidders and the road went to the reorganization committee without any opposition.

The sale of the road was in itself one of the most tame and uninteresting performances possible to imagine. It was advertised to take place in front of the Union Pacific freight house at the junction of Ninth and Jones sts. at 11 o'clock, and it was just one minute after that time when Master in Chancery Cornish, who was to act as auctioneer, took his place on the stone step in front of the Ninth street entrance to begin the sale. For over half an hour a crowd had been gathered, and it was only with great difficulty that Mr. Cornish was able to get sufficient room to enable him to work. He finally jammed himself back into the corner of the doorway, with one shoulder against the door and the other against the brick wall, and conducted the business.

A BIT OF ITS HISTORY.

Some Significant Points in the Annals of the Transcontinental Highway.

Washington, Nov. 2.—The idea of uniting the Atlantic and Pacific coasts by a system of railways is said to have been first given public expression in the Emigrant, a weekly newspaper published at Ann Arbor, Mich., from Nov. 8, 1829, to Dec. 1, 1834.

A bill that passed the United States senate June 20, 1862, by a vote of 25 to 5, was the actual starting of the Union Pacific. The house passed the bill by a vote of 104 to 21 and four days later President Lincoln made it a law by affixing his signature.

A charter for \$100,000,000 was given the corporation, and a land grant of 20,000,000 acres attached.

The company was formally chartered July 2, 1862, with authority to construct a railway from Omaha to the eastern boundary of the state of California.

The act incorporating the company provided for a government subsidy equal to \$16,000 per mile for that portion of the line between the Missouri river and the base of the Rocky Mountains; \$48,000 per mile for a distance of 150 miles through the mountain range; \$32,000 per mile for the distance intermediate between the Rocky and Sierra Nevada ranges, and \$48,000 per mile for a distance of 150 miles through the Sierra Nevada.

The company had also a land grant equaling 12,800 acres to the mile.

The original act provided that the government subsidy should be a first mortgage on the road, but by amendment it was made a second mortgage, the company being authorized to issue its own bonds to an amount equal to the government subsidy as a first mortgage on the line.

The whole available capital of the road was ultimately to cost \$50,000,000, of which \$218,000.

The government had offered in subsidies more than the cost of the construction of the road, and Oakes Ames, of Easton, Mass., who was interested in the building of the road, formed a corporation which became known as "The Credit Mobilier of America," which was to receive all the profits of the constructors and divide them among the stockholders in the Credit Mobilier.

The profits were enormous, amounting to \$43,929,328. Under the Ames contract alone and within one year dividends were paid amounting to 549 per cent on the capital stock.

The matter was investigated by congress and the exclusion of Ames from the house of representatives, of which he was then a member, was recommended. It was, however, never carried out.

The first 11 miles of the road were completed Sept. 25, 1865, and the road was completed to its junction with the Central Pacific at Promontory Point, Utah, May 10, 1869.

The meeting of the two roads was duly celebrated. Gov. Leland Stanford of California, president of the Central Pacific, was present, as was Vice-President Durrant of the Union Pacific. Ties were laid for the rails and when they met the last spike, which was of gold, was driven. Telegraph wires were connected so that each blow of the silver sledge was reported instantly in all the large cities from the Atlantic to the Pacific.

CUBANS DON'T ASK FOR AUTONOMY

INSURGENT LEADERS TAKE
IMPORTANT ACTION.

Want Absolute Freedom—Prominent Men Meet and Declare the Island Must Have Complete Freedom—Work of the Revolutionary Party is Endorsed

New York, Nov. 2.—A meeting of prominent Cubans, presided over by Thomas Estrada Palma, representative of the Cuban provisional government, was held in the Astor House Monday. The meeting declared against autonomy, and decided to stand for the complete independence of Cuba.

Great importance is attached to the declarations in Spanish as well as Cuban circles here. When the news of the meeting reaches Spain and Cuba its significance will no doubt be duly appreciated there.

The men who met were not all members of the Cuban revolutionary party. Many of them were former autonomists, and had until recently adhered to the principles sustained by their parties in Cuba. But it was unquestionable that those assembled were representatives of all phases of Cuban society and interests.

INDIAN SCARE ENDED.

Little Uneasiness Is Now Felt by the Settlers in Colorado.

Rifle, Col., Nov. 2.—Game Commissioner Swan and Warden J. T. McLean returned here Sunday night from Meeker. Mr. Swan went from Meeker to Yellow Creek, where he met Warden McLean and Sheriff Wilber of Rio Blanco county. They reported that the Indians were getting out of the country as fast as possible. Warden McLean and Sheriff Wilber had been riding the country four days notifying the Indians to leave, and when the officers started back to Meeker the Indians were all moving out.

These officials, as well as the settlers along the river from Rangely to Meeker are satisfied that the Indians have left for good and very little uneasiness is felt on the part of the settlers.

Expert Witness Must Appear.

Springfield, Ill., Nov. 2.—A decision rendered by the supreme court Monday in the appeal case of Dixon vs. the people is of great importance to professional men who are called upon to give expert testimony in the courts. Dr. J. N. Dixon of this city, who was called as an expert witness in a personal injury case against the city of Springfield, refused to testify unless he was first paid a reasonable fee for this service, claiming that his professional opinion was his own property and could not be taken away from him except by due process of law, as provided in the state constitution. Judge Creighton ruled against him, and fined him for contempt of court, and this ruling is upheld by the supreme court.

Kansas City, Mo., Nov. 2.—The second trial of J. C. Darragh, formerly president of the defunct Kansas City Safe Deposit and Savings Bank, for receiving deposits when he knew the bank was in a failing condition began in the criminal court in Independence Monday. This Kansas City Safe Deposit and Savings Bank was the largest savings bank in the state. It had \$2,000,000 in deposits, nearly all from poor people, and when it failed only \$100 in cash was in its vaults. Darragh owed the bank \$164,000, of which \$96,000 was protected by doubtful securities.

Will Control Trade in Soudan.

London, Nov. 2.—A dispatch to the Daily Mail from Paris says: "A British syndicate has obtained sole control of the trade of the Soudan in exchange for the payment of an annuity to the Egyptian government and the defrayal of the expenses of military occupation. It will reconstruct and work the railway from Suakim on the Red Sea to Berber on the Nile, the southernmost point reached by the Anglo-Egyptian expedition."

American Lack of Enterprise.

Washington, Nov. 2.—Consul Tinsle, at Brunswick, Germany, says that the importation of American products in that district is insignificant in amount, due more to the lack of enterprise on the part of American manufacturers than to any indisposition of the people to buy foreign-made goods.

CRISIS AT PRINCETON.

University Is Likely to Have an Open Clash with Church.

Princeton, N. J., Nov. 2.—The discussion over Princeton inn, the consequent condemnation of Princeton university, and several of its professors by various presbyteries and synods throughout the country, and the action taken by Rev. Dr. Shields, in announcing that he would sever his connection with the Presbyterian church, has caused a breach between the university and the church, which is now believed to be rapidly approaching an open rupture. On Thursday, Nov. 11, the New Brunswick synod of the Presbyterian church will convene in the First church here. A resolution will be introduced condemning Prof. Shields for signing the petition for a liquor license for Princeton inn, which will be followed by Prof. Shields' resignation as a minister of the church. President Patton, who will be present, is then expected to speak in defense of Prof. Shields, and the gauntlet may be thrown to the church by the university.

This increase is principally accounted for by a decrease in the amount of cash on hand. The cash in the treasury is classified as follows: Gold, \$190,387,256; silver, \$509,351,943; paper, \$113,441,000; bonds, disbursing officers' balances, etc., \$18,489,756; total, \$831,699,957; against which there are demand liabilities amounting to \$623,913,857; leaving the net cash balance in the treasury \$207,786,099.

"You never do that," said Miss Cayenne.

"Never."

MANY HEAD FOR CHICAGO

Low Excursion Rates and Horse Show Furnish the Attraction.

Cheap rates on the railroads are drawing Janesville people to Chicago this week. Seventy-five tickets were sold for the morning trains, while not a few left on the 7:20 Northwestern passenger last evening. Merchants say they don't object to the number of passengers, but say that it is the amount of money they leave in Chicago that makes it bad.

MANY DUCKS SHOT SINCE WIND VEERED

CHANGE IN WEATHER HAS IMPROVED THE HUNTING.

Telegrams From Northern Wisconsin Say Deer Hunters Enjoyed Fine Sport Yesterday--High Wind Stirrs Up the Ducks and Improves the Shooting at Koshkonong.

With the advent of colder weather, cloudy skies and a high northeast wind, duck hunters have begun to take an interest in life once more. Many from this city have gone back to Koshkonong for a few days among the black heads. The shooting yesterday was the best of the season.

Telegrams from the north indicate that the deer season has begun, satisfactorily for the hunters who started out this morning. The most favorable reports were received from Thorpe, Neillville, Monica Junction and Ashland, and it is likely that the express companies will bring a great many deer to market today. James C. Pond general passenger agent of the Wisconsin Central lines, has received reports from a number of agents in the northern part of the state relative to the deer hunting situation, and in speaking of them he said:

"The best deer country lies between Thorpe and Stanley, Withee and Boyd, either east or west of Medford and Rib lake, and from Prentice west on the Soo line to Kennan. There are plenty of deer both north and south of Deer Tail, Hawkins and Ingraham, and the forty miles of country lying between the Wisconsin Central and Soo lines is also highly recommended. On the Rib river, between Abbotford and Lamerdin, I hear there is good hunting, and between Fifield and Pike lake there is fine partridge shooting. Hunting parties from Ohio, chiefly Xenia, Peru and Lima, have gone to Prentice, but the majority of non-residents have gone to the Minnesota woods for their deer this fall on account of the Wisconsin high license."

YEAR OF TRIPLE HOLIDAYS

Memorial Day, Fourth of July and Halloween All Strung Out.

What a year this has been for the boys. The Fourth of July did not fall on Sunday for nothing. It gave small patriots three independence days in one year with three in morial days and three Halloweens to balance. Three memorial days are not so bad, for nobody is likely to observe all three. Some towns choose Saturday, May 29, this spring, others took Sunday and others deferred their celebration until Monday. With the Fourth it was different. In defiance of calendars July 4 began this year soon after dark Friday, July 2, and did not peter out until the early hours of Tuesday, July 6.

With Halloween it has been the same. The real date being Sunday there was an even division. Saturday night, Sunday night and Monday night were all made joyous. This triple repetition of the performance rather marred the fun. A man might see the fun in moving a heavy panel of fence back into place the first morning but after putting it back three mornings in succession the most genial chuckle would harden into a grunt. If Thanksgiving would also fall on Sunday this year and make possible a triple attack on the seductive turk that would be some slight recompense but even this is denied and the only cheering thought is that Christmas falls on Saturday so there are two rest days together.

POOR YEAR FOR POTATOES

Wisconsin Growers Have Fared Better Than the Rest of the Country.

Northern tubers in car load lots have been arriving in Janesville the past few days. The Wisconsin supply is said to be good but in the country at large there is an apparent falling off of nearly 30 per cent. in tonnage and the quality is greatly deficient. County and township returns from all the leading potato states show the yield of potatoes to be 174,000,000 bushels against 245,000,000 in 1896, 286,000,000 in 1895, 185,000,000 in 1894 and only 155,000,000 in the short crop of 1892. The average rate of yield per acre is placed at 64 bushels taking the country at large, against 86 bushels in 1896, 89 in 1895 and 62 in 1892.

SHOE FACTORY GOES UP SOON

New Richardson Plant in Menominee to Be Completed By Spring

The contract for the new Richardson shoe factory at Menominee will be let this week. The building will cost about \$8,000. At the recent meeting of the directors it was decided that immediate action was necessary and that in order to have the building ready for occupancy in the spring the work of excavating should commence at once. It is probable that a Menominee firm will be awarded the contract.

SPAIN BUYING WARSHIPS.

Gets Cruisers Built for Another Government in England.
 London, Nov. 2.—The Daily Chronicle says:

"We are informed that the Spanish government signed contracts last week with an important firm of British ship-builders, by which it acquires some cruisers fitted with quick-firing guns which the firm had nearly completed for another government, whose consent, presumably, Spain had secured to this arrangement.

"When the question of finance was raised by the constructors, the Spanish minister of marine, Admiral Bermejo, represented that in the event of war the Spanish government could count upon an internal war loan."

Consumption Cure Free.
 San Francisco, Nov. 2.—It is proposed by the Cooper Medical College and persons who are convinced of the efficacy of Dr. Hirschfelder's oxytuberculin in the treatment of consumption to secure the compound for free distribution. No definite plans have been decided upon, but it is thought that the best channels of distribution will be the health department of the cities and the public hospitals. Dr. Hirschfelder has given his sanction to the movement, and will reserve no proprietary rights.

A BARBAROUS SURGICAL OPERATION

For the Cure of Piles.

Is not only intensely painful, dangerous to life and very expensive, but in the light of modern medical research and since the discovery of the Pyramid Pile Cure a surgical operation is wholly unnecessary. If you have any doubt on this point kindly read the following letters from people who know that our claims regarding the merits of the Pyramid Pile Cure are borne out by the facts.

From N. A. Stall, Ridge Road, Niagara Co., N. Y.: "I received your Pyramid Pile Cure and tested it last night. It did me more good than anything I have ever found yet, and remember this was the result of one night's treatment only."

From Penn W. Arnett, Batesville, Ark.: "Gentlemen:—Your Pyramid Pile Cure has done me so much good in so short a time that my son-in-law, Capt. T. J. Klein, of Fort Smith, Ark., has written me for your address as he wishes to try it also."

From A. E. Townsend, Bensville, Ind.: "I have been so much benefited by the Pyramid Pile Cure that I enclose \$1 for which please send a package which I wish to give to a friend of mine who suffers very much from piles."

From John H. Wright, Clinton, De Witt Co., Ill.: "I am so well pleased with the Pyramid Pile Cure that I think it but right to drop you a few lines to inform you its effects have been all that I could ask or wish."

From P. A. Bruton, Llano, Tex.: "Gentlemen:—The Pyramid Pile Cure has done so much good for me that I will say for the benefit of others that after using only two days I am better than I have been for months."

The Pyramid Pile Cure is prepared by the Pyramid Drug Co., of Albion, Mich., and it is truly a wonderful remedy for all forms of piles. So great has been the number of testimonial letters received by them from all parts of the country that they have decided to publish each week a number of such letters and never use the same letter twice, but only fresh letters will be published.

All druggists recommend the Pyramid Pile Cure, as they know from what their customers say that no remedy gives such general satisfaction.

WITH THE YARDMASTER

MAYOR Thoroughgood and the city council had a little chat over old time, last night. It was decided that things are not as they should be.

It was thought yesterday, that the Hallowe'en tribe would return to their rancheries, and commit no more depredations, but last night they broke out again and scattered property all over town and disturbed many settlers.

"Yes it was a long rough journey to reach the Klondike over the Chilcoot pass," said a stranger to the Yardmaster this morning. "I landed in Dawson on the 26th of June completely worn out. After a few days' rest I started out in search of a claim. I came upon two men sluicing. I asked them where they thought I could locate a rich claim. One of them said: 'Right yonder in the shadow of that tree ought to be very rich.' I did not know at the time that he was joking, but just the same, I sank a shaft like an old timer. You may not believe me, but the second day I panned out \$1,900. The largest nugget I took out during the summer was worth \$193. The joke I had on this miner who directed me to the shade of that tree, was that my claim was twenty times richer than his. Well, anyway, I worked hard all summer. When I left there, I had more gold than I cared to pack. But I started with my load. I did not worry much about getting out of the country, as far as my strength was concerned, but I feared that some Indian might take my life. When I was safe on board the steamer Eliza Anderson, I guess I was the happiest man on earth. I had a very pleasant trip to Seattle and fully as pleasant across the continent. When I arrived here yesterday, I looked around and decided to make this my home. I put my gold in what I thought was a safe place, then I heard a noise. To me it was a strange sound. When I awoke I knew in a moment that it was the 7 o'clock whistle."

I picked up a book the other day and found in it the history of Black Hawk. He was also the sole owner of another name which he used in time of war. That was Ma-ka-tai-me-she-kia-kish, which when translated into English means Man-not-afraid-of-the-snow. He was loyal to the British and to the American alike. If the British got into Black Hawk's camp, with guns, run food and blankets before the Americans did then, he was ready to join the British and help to tear up the earth. Before Black Hawk died he made a farewell speech to his tribe on the banks of the Des Moines river in the month of June 1838. The following were his last words in public: "Countrymen, our tame geese is cooked. There are but a few of us left. Our race is run down at the heel. The pale face has ripped us up the back and down the brisket. Their strong coffee, patent medicines, cigarettes and cooking whiskey has got us on the run. Oh, red men of the west, I am a wreck and that cheap American gin was the cause. I have lived a long time and have fought a hard fight. Now my time has come to get off the earth. Those of you who can hang on for a while longer, do what you can in the way of house cleaning. Clean out all the settlers. Tell them to move as we do not like their society. In conclusion let me say, farewell, and I'll meet you in that happy hunting ground with a new supply of red paint."

DEPEW ON THE C. & N. W.

Says It Is One of the Liveliest Lines in the Country

"Talking about great railroads," said Chauncey Depew, "the Chicago & Northwestern with its 8,000 miles of track is about the liveliest railroad on this continent."

"The Northwestern trains run to St. Paul, and, in fact, over the Union Pacific to California. It is the only road that you can ride fifty miles an hour on from Chicago to Ogden and Portland, Oregon, without changing cars."

"Where else does the 'North-West' run to?" I asked.

"Why everywhere. It is an all-over creation railroad. It spreads out like a great fan from Chicago. It runs straight through to Milwaukee, Madison, St. Paul, Duluth, Superior, Ashland and the copper and iron mines of North Michigan. It runs straight through Wisconsin, Minnesota and South Dakota to Pierre on the Missouri and Oakes on the Northern Pacific. It shoots a train straight through Cedar Rapids, Iowa, Omaha, Nebraska, to the Black Hills in South Dakota, and to the Asphalt lakes beyond Fort Casper, in Montana. It draws the tin from Harney's Peak, and corn from Lincoln, Hastings and Superior, Nebraska."

HOME AND SOCIETY

Greater Burdens than Delicate Women Can Bear Without Help.

Women may find Strength and Inspiration in Dr. Greene's Nervura for the Nerves and Blood.

What greater strain could there be upon women's nerves than the never-ending cares of a household? None, unless it might be the exactions of society. Three meals a day, seven days a week, and all different. Soft words and sweet smiles when husbands are cross and children crying. Wise talk on weighty subjects and witticisms on airy nothings. These things and much more are expected of women. Is it strange that they are not always equal to the world's expectations?

DR. GREENE'S NERVURA

For the Nerves and Blood

Overworked women may find strength and buoyancy in Dr. Greene's Nervura. It is not a stimulant affording only temporary relief and followed by corresponding depression, but a permanent renewer of life and vigor. Exhaustion, despondency, irritability, nervous headaches and dyspepsia, and all ailments arising from nervous derangements and impure and weak blood are quickly relieved by this standard remedy, which may be obtained from any first-class druggist. If you do not fully understand your case, and feel the need of expert medical advice, call for consultation and advice, or write to the office of Dr. Greene's remedies, 148 State St., Chicago, Ill. Consultation in all cases is absolutely free, personally or by letter.

HOT ROASTS FOR ALL SERVED BY COUNCIL

SIDEWALKS AND ELECTRIC LIGHTS CRITICISED.

Mayor Thoroughgood Demands That the Street Commissioner Be Removed Forthwith—Alderman Rice Complains That Arc Lights Burn Only Part of the Night.

The street commissioner, the electric lights, the water company and the sidewalks all have attracted attention given to them at the council meeting last night.

The street commissioner was not on hand to hear his share and Janitor Patrick Riley was sent after him. Janitor Riley reported that the commissioner had gone off to a party and the mayor declared that he wanted him removed forthwith for a neglect of duty. As a compromise measure it was ordered that the clerk notify the street commissioner to attend all meetings in the future. The discussion of the street commissioner's actions came up in consequence of some comment on the condition of local sidewalks. Mayor Thoroughgood said he had been told that the street commissioner was not enforcing the council orders when resolutions were passed calling for the laying of new walks. The mayor said there were orders for new walks put in when he was mayor before that had never been given any attention.

City Attorney McElroy being called on for his opinion, said that the council had the power to compel the commissioner to do his duty. If not, he could be impeached. He could not be discharged without a hearing.

Alderman Burnham brought up the subject of a \$500 appropriation for Oak Lawn hospital in order that there might be a fair discussion of it.

Mayor Thoroughgood declared that the hospital was slowly going down, and it was decided to do nothing about it until there had been a conference with the board of directors.

The fire and water committee was given more time to report on the affidavit of C. A. Sanborn and S. E. Phillips, that 50 per cent. of the original value of the building back of No. 3 South Franklin street had not been spent in repairs and that the fire ordinance, therefore, had no bearing.

The application of J. A. Cunningham to repair a building owned by the Janesville Clothing Co., which was denied by the chief engineer as it was not in accordance with the fire ordinance, was referred to the fire and water committee, who reported in favor of granting the application. Report adopted.

The drugist's permit issued to H. L. Palmer was transferred to Ralph Sarasy.

The board of Police and Fire Commissioners reported as follows:

To the Honorable Mayor and Common Council of the city of Janesville, Wis.—We beg leave to report that on May 10, 1897, the Board of Police and Fire Commissioners, of this city, duly adopted rules and regulations to govern the selection and appointment of persons to be thereafter employed in either the police or fire departments, said rules and regulations to take effect on that day.

Pursuant to said rules and regulations, examinations for positions in the police and fire departments were held, beginning October 11, 1897. The following named persons, applicants for positions in the police department, having successfully passed said examination, are hereby appointed to the respective positions applied for, to wit:

John W. Hogan, city marshal.
W. H. Appleby, patrolman.
John Brown, patrolman.

The following named persons, applicants for positions in the fire department, having successfully passed said examination, are hereby appointed to the respective positions applied for, to wit:

John C. Spencer, chief engineer.
George H. Osgood, assistant chief engineer.
Regular Men—Thomas F. Abbott, captain; H. C. Klein, P. D. Champion, J. C. McGinley, William A. Scott, Patrick Gallagher.

Call Men—C. J. Murphy, Arthur A. Ott, M. P. Birmingham, James P. Gillespie, Henry J. Cullen, William Doherty, Charles I. Young, A. W. Bauman, engineer; Ben Barriage, driver, without pay.

The promotion of Thomas F. Abbott was made upon the recommendation of the chief engineer. The appointments to positions in each department are not to take effect until the 11th instant.

The connection of E. J. McCue, Patrick Dugan, George Schaller, J. H. Knudson, William Boos and William Wilson with the fire department, will cease on the 11th inst.

Dated, Janesville, Wisconsin, November 1, A. D., 1897. Respectfully submitted.

VICTOR P. RICHARDSON, Pres;
WILLIAM S. JEFFRIES,
JOSEPH P. BAKER,
THOMAS S. NOLAN, Sec.

Board of Police and Fire Commissioners.

Alderman McLean reported that the claim of Mr. Langworthy for damages to his wagon could be settled for \$15 and it was the opinion of the city attorney that the council should settle for that amount. Report adopted.

City Attorney McElroy called the attention of the council to the fact that many teams were allowed to stand hitched in the street, and they were a great source of danger, especially in the night time.

Alderman McLean called the attention of the council to the fact that water pipe had been ordered put in on North street several months ago; that the pipe had been lying there for two months and that no steps had been taken toward putting it in.

Alderman McKee, chairman of the fire and water committee, stated that he had spoken to W. W. Hyzer about the pipe. He had said that Secretary E. M. Hyzer would be in town the following day and he would speak to him about it.

Alderman Kothman said the fountain had been overflowing for some time and was a nuisance, but that he had spoken to R. C. Yeomans, who had fixed it yesterday.

Alderman Millmore, from the highway and bridge committee, to whom was referred the matter of the present need of a bridge on Milwaukee street, had investigated the condition of the same, assisted by City Engineer Perry Brown and Contractor John Watson and would report that bridge is good for the present. Report adopted.

Alderman McKee introduced an order instructing the clerk to order a car of re-pressed red brick for paving the east side engine house floor and for street crossings. The car would cost \$13.60 free on board the cars in Janesville. He thought there would be about 6,000 brick in the car. Adopted.

Alderman Rice introduced an order directing the street commissioner to serve notice upon the owner or owners of lots 191 to 204 inclusive, in Mitchell's fifth addition to repair the walks in front of said property on Palm street. Adopted.

Alderman Rice said that numerous complaints had been made to him about the electric street lights. Some of the lights burned all night, and some only part of the night. He thought a halt ought to be called on that kind of business. Mr. Norcross should fill his contract, and he (Rice) should refuse to sign any more bills for lighting the streets unless the contract was carried out.

Alderman Jones, chairman of the lighting committee, told Alderman Rice he should have the location of the lamps and the dates they were not burning.

Alderman Rice said he had both, and could furnish them to Alderman Jones.

The council then adjourned.

STOCKHOLDERS MET FOR FINAL ACTION

AGRICULTURAL AFFAIRS TALK- ED THIS AFTERNOON.

Meeting Held at the Court House at 3:30 O'clock Was Full of Interest Several Stockholders Have Their Say About Affairs—Appointment of Receiver.

Less than two dozen stockholders attended the special meeting of the Rock County Agricultural society, held at the court house this afternoon for the purpose of coming to some definite understanding about closing up the society's affairs. At 3:30 o'clock Secretary George M. McKee called the meeting to order. He stated briefly the society's financial condition and asked the opinion of the attending stockholders.

Secretary McKee stated that the appointing of a receiver had been favored by some while others were in favor of turning the property at once into J. M. Bostwick's hands for a nominal sum with the privilege of redemption.

Some stockholders declared that the trouble with Rock county fairs had been the date at which they were held claiming that they were in harvest time, when it was hard for the farmer to come to town. October they thought would have been a better time.

Secretary McKee reported that the debts of the society up to August 7, 1897, aggregated \$10,362.46. The money taken in for the use of the grounds this year was \$152.61.

It was announced that J. M. Bostwick had served notice of foreclosure on the society. In order to free the society from responsibility, it was voted to lease the grounds to Mr. Bostwick one year and three months, for one dollar.

In case the lease is made, the society reserves the right to use the grounds free of charge, for a fair next fall.

The proposition to appoint a receiver was defeated, because it involved an expense of \$300.

EWING NOT LIVING IN SALTSBURG, PA.

MAYBE DEAD FOR ALL RELATIVES KNOW.

His Brother Writes That He Has Not Been Heard From Since He Went West in 1894—Sheriff Acheson Receives a Letter From the East.

Wherever William Ewing is, he is not in Saltsburg, Penn. It may have been he or it may have been any other man who was killed in the woods near Newville. Ewing's relatives have never seen him or heard from him since he left home in 1894. A letter was received by Sheriff Acheson today stating that Ewing came west early in 1894. He was not much of a letter writer, and his brother declares that none of the family have heard a word from him since they saw him start for the train. Ewing's brother is a machinist.

Chief Hogan has written to Saltsburg authorities to trace Ewing, if possible, but has received no reply.

THE LOST KISS.

I put by the half written poem,
While the pen, idly trailed in my hand,
Writes on, "Had I words to complete it,
Who'd read it, or who'd understand?"

But the little bare feet on the stairway
And the faint, smothered laugh in the hall
And the eerie low lip in the silence
Cry up to me over it all.

So I gathered it up, where was broken
The tear faded thread of my theme,
Telling how as one night I sat writing
A fairy broke in on my dream—

A little inquisitive fairy,
My own little girl, with the gold
Of the sun in her hair and the dewy
Blue eyes of the fairies of old.

"Twice the dear little girl that I scolded,
"For was it a moment like this,"
I said, "when she knew I was busy,
To come romping in for a kiss—"

Come rowdying up from her mother
And clamoring there on my knee
For "one little kiss for my doll,"
And one "little uzzer for me!"

God pity the heart that repelled her
And the cold hand that turned her away
And take from the lips that denied her
This answerless prayer of today!

Take, Lord, from my memory forever
That pitiful sob of despair
And the patter and trip of the little bare feet
And the one piercing cry on the stair!

I put by the half written poem,
While the pen, idly trailed in my hand,
Writes on, "Had I words to complete it,
Who'd read it, or who'd understand?"

But the little bare feet on the stairway
And the faint, smothered laugh in the hall
And the eerie low lip in the silence
Cry up to me over it all.

THE UNKNOWN.

The cemeteries of cities are like great
hotels, where the close proximity of
people in different classes of life is not
always happy. The walls of partition
seem to leak a secret horror of unrest;
there is something of constraint, of
promiscuity, of cold dignity in the
obligatory relations of body to body.
Here the dead are not at home.

In the graveyards of the country,
among the thick flowering underbrush
and the quiet of the wide fields, is a
better repose for us after our stormy
struggles. A cemetery thus situated,
the center of far-reaching horizons, in-
spires one with a desire to die. To lie
down here and sleep seems good. But
most peaceful of all are the realms of
the dead in marine villages, at the edge
of the sea, within sound of the lulling
of the running waves which sing an
eternal song on the eternal sleep, amid
the wail of the wind over the ancient
tombs.

One day about 15 years ago I entered
one of these places of supreme rest be-
side the waves on the Breton coast,
with its crosses pointing toward heaven
in a way which makes one think of
eternity. Beside a little old church, be-
neath the shadow of a stone bell turret,
slept the forefathers who, whether they
had died in youth or in age, were all
made an equal age by accomplished
time. And there was no sadness in this
evidence of a fatal destiny, but rather
a happy relief in the thought that the
burden of suffering will not always
weigh down our poor shoulders and
that sorrow has its prescribed limit.
And pleasant, too, was the slow spell-
ing out of the inscriptions on the tombs
in the warmth of the sunlight which
the fluttering, intoxicated birds greeted
with a sweet delirium of song. Three
centuries of time separated the old
stones from the new, and a peace was
made over all feuds here under the high
crosses with outstretched arms, clear
out against the green sea, standing in
their eternal attitude of forgiveness.

One tomb in the form of a chalice ar-
rested my attention, and I read this sin-
gular epitaph: "Here lies an unknown.
Dec. 6, 1871. Tacita transit" (she has
passed silently).

I wished to learn all that was known
of her, and in the evening I inquired in
the village, and this is what I learned:

In November of the year 1860, on a
night of lowering sky and raging sea,
as the inhabitants slept in their huts,
which were shaken up by the squall,
the dull boom of a cannon announced
the distress of a ship on the waters
across the promontory. At this time the
little port did not possess a single life-
boat, and to attempt to depart in such a
gale in the barks of the fishermen would
be simply folly. Each one who heard
the sound could only pray, "God help
them!" But doubtless the noises of the
angry sea drowned out the human voices,
and God heard nothing, for next morn-
ing the sea stretched wide under the
blue sky, swept clear—not a speck on
the horizon, nothing but the ripples of
foam on the waves. So it had disap-
peared, founded, the boat that had
cried for help with a call of iron during
that night of terror. The sadness of the
disaster caused a silence among the fish-
ermen, when suddenly down on the
strand a cry arose. At this moment the
Marquis de Pontus, master of the chate-
au, came up to the group of people to
learn the end of the night's drama.

The cry had come from a peasant who
had discovered the body of a woman
clothed in a long white robe, thrown
between two enormous rocks. She was
apparently dead and must have rolled
from her bed on the ship into the sea.

"Her heart still beats!" cried the
peasant. The marquis commanded,
"Carry her to my house quickly and
wrap this cloak around her."

He was obeyed. In fact, the woman
still lived and after hours of ingenious
labor opened her eyes.

"Ask her nothing," said Pontus.
"She is still too weak and must sleep."

icately and finely shaped. He asked her
where she came from, where she was
going, who she was, in phrases gentle
and courteous, for he was already
moved by her tragic beauty. She listen-
ed without making a sign and did not
answer. He repeated his question, say-
ing he troubled her only for her own
good. She remained silent, and it was
evident his words conveyed nothing to
her.

"Perhaps she doesn't understand
French," said a friend.

"She understands nothing at all,"
said Pontus sadly. "I fear she has lost
her mind in the horror of the catastro-
phe. But it does not matter. She has
fallen from heaven, and she is at home
here, mad or sane. God sent her to me,
and I will guard her." And he kept
his word.

Days, months, years, passed. The un-
known lived silently, without words
and apparently without thoughts. She
loved to be out of doors and mixed with
other people, seeming by all exterior
appearances to be like them. At the
table of the marquis, in the family of a
refined ancient race, she carried herself
with the grace and dignity of one ac-
customed to a similar world, and Pon-
tus often said, "This child is a great
lady."

In spite of the most thorough investi-
gations not a ray of light, even the
faintest, pierced the mystery. It could
not even be conjectured what the boat
lost at the coast had been or who
this woman was who accepted placidly
the care of strangers, showed neither
sadness nor joy, had no desires and
lived unconsciously the life of a beau-
tiful white bird in a cage of gold. Little
by little the marquis grew attached to
her. His house was large, and he re-
fused to have her confined in a hospital,
repeating that she was his charge and
sacred to him above everything. And
sometimes when he watched her walk-
ing in the park of the chateau Pontus
would grow very sad and murmur, "If
this beautiful girl had a soul, how I
would love her!" And Pontus, who was
then in his thirty-sixth year, refused
obstinately to marry—on account of the
unknown.

And so he grew older, and with the
years came a deeper melancholy. How-
ever, in his voluntary seclusion there
was some sweetness. The woman seemed
to like to be near him, though her man-
ner was like that of a petted animal.
She ran to him when she saw him and
looked at him with her clear eyes, in
which shone a fugitive light of recogni-
tion and devotion, but the next moment
she would run away again, often into
the woods, where she wandered about
all day, returning always at dusk, for
she had a great dread of the darkness.

One stormy night in November she
shuddered at the sound of the wind from
the sea and groaned softly, with her
hands clasped to her breast in an atti-
tude of deep sadness. A little later she
uttered a hoarse cry and fell to the floor
unconscious. It was just 12 years since
she had come to life in the chateau.
Pontus, very much alarmed, hurried to
the village for help. A doctor was sum-
moned and returned with him in great
haste. The patient was examined and
the case diagnosed as quick consump-
tion. She had carried the germs of the
fatal disease in her system for some
time. Pontus was in despair.

One morning in the winter the un-
known passed quietly away in the arms
of the marquis. At the supreme moment
the mysterious sick woman seemed to
regain her reason suddenly. She looked
about with eyes frightened but compre-
hensive, which seemed to say: "Where
am I? Who are these men?" She opened
her lips to speak at last in her native
language, but death, jealous of the
mystery, sealed her tongue with his icy
touch.

The marquis, inconsolable, had en-
graved on her tombstone the epitaph,
"Tacita transit."—Translated For Cin-
cinnati Tribune.

A Famous Blunderer.

M. Calino, the popular French sim-
pleton who performs in the humorous
literature of France much the same
function that the traditional Paddy
does in English literature, has been
made the subject of a grave study, in
which his innocent stupidities are care-
fully analyzed. He is nothing more or
less than a convenient personification
of a type of the harmless blunderer and
complacent lack wit found in all ages
and countries. In France his sayings
reflect, however, something of the pic-
turesqueness which is characteristic of
the nation.

Calino's blunderings, it seems, began
at an early age. He had not craft
enough to tell a lie that would hold wa-
ter for a moment. One day at school he
got into a fight with a companion and
came home with a gash on his forehead.

"How did you get that cut?" asked
his father.

"What cut, papa?"

"Why, that great gash on your fore-
head."

"I hit myself there, papa."

"Bit yourself! Why, you couldn't
bite yourself on your forehead."

"I got up on a chair to do it, papa."

Later in life Calino delivered himself
of the following bit of wisdom:

"As for me, I don't care so much for
the sun as I do for the moon. You see,
the sun only comes after it gets day-
light, when we could see just as well
without it, but the moon's some use—
it shines at night."

Early one morning, when Calino was
out with his gun, he saw a robin in the
garden of his friend Camille. He aimed
at it, but it dropped below the top of
the wall. Then Calino went into the
house, crept up stairs softly, stole into
Camille's bedroom without waking
Camille, who was in bed, pointed his
gun out of the window at the robin and
fired—bang!

Camille leaped out of bed in wild
confusion and alarm.

"W—w—why—w—w—what's the
matter?"

"Oh, did I wake you up?" said Cal-
ino. "I pulled the trigger just as softly
as I could."—Youth's Companion.

AN INCIDENT AT THE CITY HOSPITAL.

A Woman's Life Barely Saved by a Critical Operation—Her Health Destroyed.

There was a hurry call for the ambulance of the City Hospital. In the
course of an hour a very sick young woman was brought in on a
stretcher. She was pale as death and evidently suffering keen agony.
There was a hasty exam-ination and a consultation. In less than a
quarter of an hour the poor crea-
ture was on the operating table to
undergo the operation called
ovariotomy.

There was no time for the usual
preparation. Her left ovary was on
the point of bursting; when it was re-
moved, it literally disintegrated. If it
had burst before removal, she
would have died almost in-
stantly! That young woman
had had warnings enough in the terrible pains,
the burning sensation, the swelling low down
on her left side. No one advised her, so she
suffered tortures and nearly lost her life. I
wish I had met her months before, so I could
have told her of the virtues of Lydia E.
Pinkham's Vegetable Compound. As it
is now, she is a wreck of a woman.

Oh, my sisters, if you will not tell a
doctor your troubles, do tell them to a woman who
stands ever ready to relieve you! Write to Mrs.
Pinkham at Lynn, Mass., confide freely to her all
your troubles, and she will advise you free of
charge; and if you have any of the above symp-
toms take the advice of Miss Agnes Tracy, who
speaks from experience and says:

"For three years I had suffered with inflamma-
tion of the left ovary, which caused dreadful pains.
I was so badly affected that I had to sleep with
pillows under my side, and then the pain was so
great it was impossible to rest.

"Every month I was in bed for two or three days.
I took seven bottles of Lydia E. Pinkham's Vege-
table Compound, and am entirely cured. I think
there is no medicine to be compared with the Com-
pound for female diseases. Every woman who suffers from any form of female
weakness should try it at once." Miss AGNES TRACY, Box 432, Valley City, N. D.

ironing easy, restores old summer dresses to their natural whiteness, and imparts to linen a beau-
tiful and lasting finish. It is the only starch manufactured that is perfectly harmless, containing
neither arsenic, alum, or any other substance injurious to linen, and can be used even as a baby

HYGIENE.

Fat and Lean—How to Remedy a Tendency Either Way.
There are always women eager to become thin and others eager to become fat, but it is admitted among physicians that it is easier to reduce flesh than to increase it. It may be rubbed off, exercised off, sweated off, starved off, if the victim has resolution enough to submit to a continuous course of such treatment, but there are many cases where no amount of thought and effort will succeed in putting flesh on. It is, of course, easier to undertake to correct emaciation when the cause of it is known. Where it is constitutional, the case is well nigh hopeless, but where it arises from dyspepsia, insufficient nutrition or nervous worry there is a better chance of combating it. Anxiety is a potent source of evil in this respect, as it destroys the appetite, weakens digestion and induces sleeplessness.

Anybody who wishes to grow plump should eat as much nourishing, easily digested food as possible, drink milk, cream and beer, exercise only enough to keep in health, avoid all mental exertion and worry and sleep a great deal. Very hot baths should not be taken often, as they

OLD ROSE GOWN.

tend to reduce weight. A sedentary life does not necessarily cause fatty development, since it is apt to affect the digestion unfavorably, and where that is at fault the body is not well nourished. Moderate exercise and plenty of open air are therefore recommended, pleasant but not exciting diversions, and, above all, peace of mind.

The illustration given today shows a costume having a skirt of old rose silk, ornamented with three bands of otter, which form a point in front. The Russian blouse of changeable velvet in old rose and otter tints has a pointed basque edged with otter and a simulated yoke consisting of a band of pink silk embroidered with gold and bordered with otter. The sleeves of old rose silk are edged at the wrists by bands of otter and have full epaulets of velvet bordered with otter.

Stove business Is wonderful!!!

This year. We catch most every prospective Stove buyer; a few of them get away, not many though. People always look around among all the Stove stocks in the city, but they finally land at the really only complete stock in Southern Wisconsin. OUR SALES AVERAGE ONE CARLOAD OF STOVES A WEEK. We are busy as bees, and intend, as we always have, to keep prices low enough to hold every purchaser.

So many people are in doubt when they buy anything--even a 5c purchase. All feeling of this kind is dispelled in your Stove purchases at our store; there is no room for doubt.

WE picked seven makes of Stoves as our sellers--not one of them with a fault--and every one a gem for the house:
